Dear Cicelle,

Dorothy has been reading some of your wonderful, wonderful letters to us - and we just love them! Herb wrote of his marvelous Christmas holiday with your family - but he has never written the details (which he promised to do) your letter made everything seem so real to us.

This is quite an experience for all of you, isn't it? And just think, the girls can speak and write French already!

Herb said you could use the enclosed here - and I hope you get it.

Herb joins me in sending lots of love to you all,

affectionately,
Tottie Smith

Dear Kew,

your parents and Kulu
and I have been having some wonderful
"get-togethers" - discussing our
"French" children and reading some
of the letters - except we don't get
many! The last time we heard
from Herb he had just arrived
in Rome the day before - and he
promised to write the next day.
If you happen to run across him
please tell him we are still
waiting for that letter!

We are all happy over
the outcome of the recent election in
Rome - Italy rather - and I know
you people in France are!

Please give the enclosed
love to Cecille - I think she can
use it! With joins me in all
good wishes and love to you and
yours,
Fondly
To the
